STANDOX

An Axalta Coating Systems Brand

The Art of Refinishing.

Get the colour you need, when you need it

Fast, efficient working is the answer in today's refinishing market. ST+ is the modern way to keep your colour tools right up to the mark.

The modern method

ST+ is the modern way to maintain your colour tools, delivering the very latest colour updates and product/technical data direct to you. This fast, effective and efficient service automatically puts the latest information at your finger-tips as soon as it's available.

Expert contractors will update the colour information on your premises, with no break in your work or inconvenience to you. ST+ gives valuable assistance to bodyshops applying for BS10125, because our services show compliance with the colour update, computer maintenance and scale calibration requirements. The customised ST+ service also means you receive exactly the information you need, whether it's Standohyd or Standofleet formulations.

The latest updates are installed for you, saving valuable time and money. You no longer have to order Colour Updates and wait.

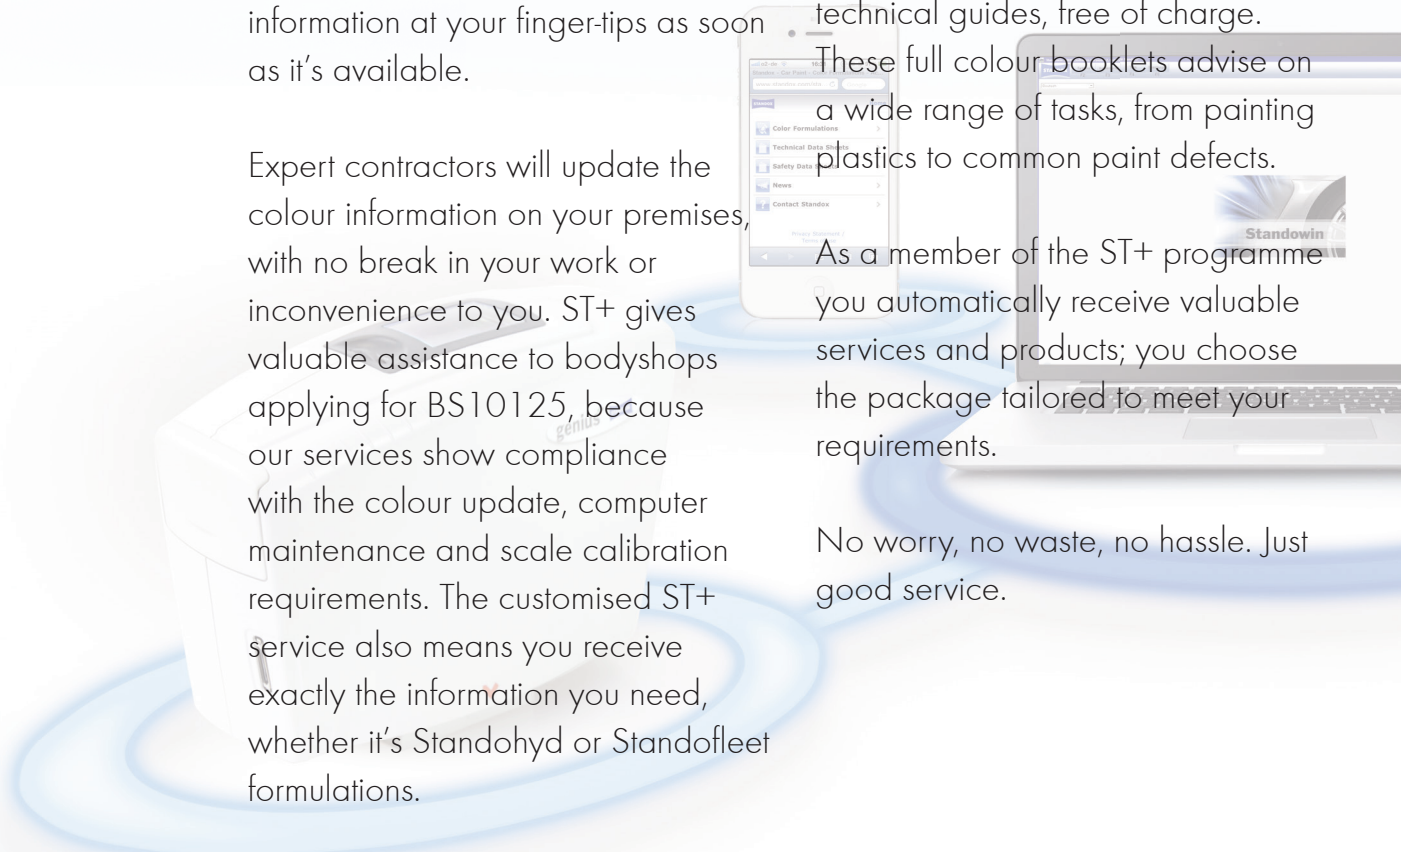

There is no danger of forgetting, or trying to work with an out-of-date system. No delays, no hesitation – just the service you need, when you need it.

As well as colour, you also have access to the full range of Standothek technical guides, free of charge.

These full colour booklets advise on a wide range of tasks, from painting plastics to common paint defects.

As a member of the ST+ programme you automatically receive valuable services and products; you choose the package tailored to meet your requirements.

No worry, no waste, no hassle. Just good service.

men you need it.

arket. System Tools Plus (ST+) from Standox gives you
