

Colour Quality Coordinator

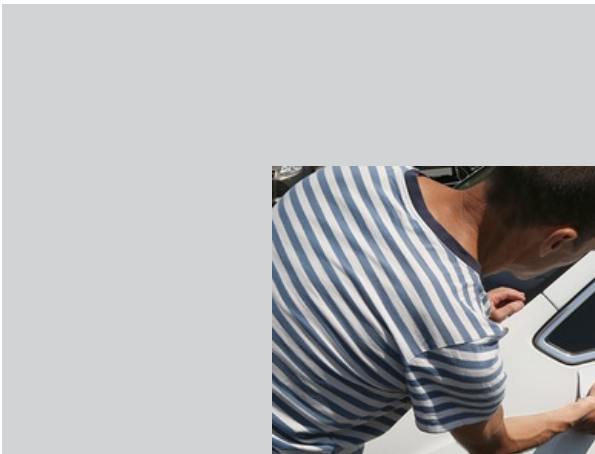

Colour matching on-site at the car manufacturer.

There is one crucial question to ensure a professional, accurate colour match: Does the refinish formula match the OEM (original equipment manufacturer) colour? In order to avoid inequalities between OEM colours and refinish formulas, Standox benefits from the expertise of Axalta Colour Quality Coordinators.

"I evaluate every currently produced model colour directly at the car manufacturer."
Horst Neumann, Axalta Colour Quality Coordinator

What does a Colour Quality Coordinator actually do?

1. Colour matching at the
Once a year Horst Neumann compare the colours produce made in the Axalta Colour La vehicles built by affiliated bra
