

MiKEY e-learning

Become a fully certified Standox Master Refinisher.

MiKEY is a highly interactive, web-based learning tool that allows you to expand your skills without leaving your bodyshop.

Benefits

- Flexible learning times at any time
- Up-to-date on new developments
- A minimum loss of working hours
- Better working practices and improved results
- Good value for money
- Motivated employees

MiKEY is divided into seven training modules. Every learning module takes about 1 hour and each one can be done separately. The training is highly interactive - using videos, animated graphics and photos, which keeps the learning experience interesting.

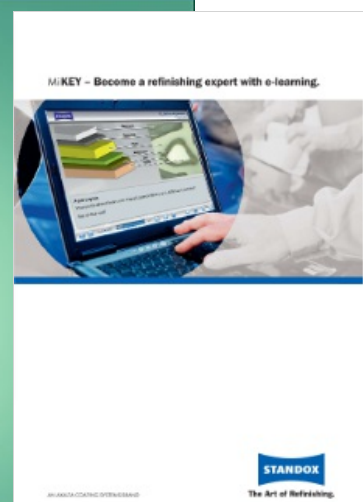

Complete all seven modules and you will become an e-Certified Standox Refinisher. You then have the option of doing a skills assessment at a Standox Training Centre. Upon successful completion of this assessment, you will become a fully Certified **Standox Master Refinisher!**

Modules

1. Safety in the Workplace
2. Surface Preparation
3. Plastic Part Preparation and Repair
4. High-Performance Substrates
5. Colours and Colour Tools
6. Refinish Repair Process
7. Application Defects

Your Investment

The total for your investment is a registration cost of \$350.00 including GST, per workshop. This is an upfront fee without any ongoings and includes a license for up to 10 users from the same bodyshop.
