

Adding Items Manually to the Cart

Starting from the shopping cart, there are two ways how you can add additional items. You can either manually enter the material code / EAN code to the cart, or you use the bar code reader. Short codes like e.g. „8800“ will not be recognized here.

Item #	Material code	Article reference	Description	Requested quantity	Unit	Net total	Pricing	Availability	Availability date	
	<input type="text" value="4024669780864"/>		Standox VOC-Xtreme-Füller U7600: 1 LT	<input type="text" value="1"/>	Each			TBD		
	<input type="text" value="4024669874082"/>		Standoflesh UV Füller U7120: 1 LT	<input type="text" value="1"/>	Each			TBD		
	<input type="text" value="4024669825510"/>		Standoflex 2K-Plastik-Grundierfüller U3200: 1 LT	<input type="text" value="10"/>	Each			TBD		
	<input style="border: 2px solid red;" type="text" value=""/>			<input type="text" value=""/>						

Once the cursor is placed in a free material code field, the field will be highlighted and you can use your bar code reader to add another item.

Click **“Enter”** and the item is added to the cart.
