

Futuristic technology – a new star in the Xtreme System: Standocryl VOC-Xtreme-Plus Clear K9600.

A new innovation in the Xtreme system. Standocryl VOC-Xtreme-Plus Clear K9600 clearcoat marks a whole new level of quality... plus much more.

Excellent processing properties, such as flexible application in 1.5 or 2 coats, good filling capability and excellent vertical stability deliver a perfect finish. Another 'plus' is its stellar drying performance – especially at low temperatures – which increases vehicle throughput and significantly reduces energy consumption. Altogether, it's a glimpse of the future, today!

The new Standocryl VOC-Xtreme-Plus Clear K9600

XTREME BENEFITS

Xtreme: fast drying.

VOC-Xtreme-Plus Clear is specially formulated for low temperature drying: 40°C/10-15 min. or 20°C/30-55 min. This can significantly reduce your energy consumption.

Xtreme: flexibility.

Flexible application in 1.5 or 2 coats makes it very easy to match to a vehicle's original finish.

Xtreme: good filling capability.

Small specks or dust particles can be covered optimally thanks to its good filling capability. This minimizes the effort needed for polishing.

Xtreme: good curing.

New VOC-Xtreme-Plus Clear clearcoat cures very quickly, after only 15min. 40°C you can take it out of the cabin. The surface will already be thoroughly dry and ready for polishing or reassembly after a short cooling period.
