Standex - Standofleet Mix 733

Standex Brand Manager Olaf Adamek

Standex Calendar 2014 - October

Standex Calendar 2014 - March

Standex Brand Manager Olaf Adamek

New hazard symbols on Standox products

The Hero image stands for reliability; whoever opts for Standox not only chooses superior products backed by a "made in Germany" quality seal, but also a strong partner.

The Walker image addresses the time, material and energy savings offered by the One Visit Application work process method.

Standex consultants help bodyshop owners to identify areas with potential for improvement and to make the best of their business.

From filler to clear coat: refinishers will save flash-off time with One Visit Application.

Refinish paint brand Standox has developed products that are also compatible with One Visit Application. This process makes workflow in the bodyshop even more efficient.
