
One Visit Application

Revolutionary at the time, One Visit Application does not require the refinisher to observe the usual intermediate flash-off time. This allows the bodyshop to save not only time but also energy and materials.

Many of our products- from fillers to clearcoats -can today be applied in one visit without intermediate flash off.

No compromise on efficiency and economy.

- One visit application **without flash-off**.
- **1.5 spray passes**, no waiting time.
- State of the art at Standox **for 20 years**, unique on the market.
- Approved by leading **automobile manufactures**.
- **Saves** materials, energy and time.
- With both Standox **clearcoats** as well as Standoblue and Standohyd **basecoats**.
- And now also with the new **VOC Xtra Filler**.

All of these Standox products can be applied in one visit.

Standohyd Plus

A brilliant future for your bodyshop.
