

Products

The right product at first glance. The new Standox packaging design.

As the best choice for professional painters we don't forget the details. The clarity of the labels is important to ensure professional handling and that's why they are to the point, with all the information professional painters need and want. We know, the most important information is a **large product code** and a **clear product description**.

More information about the new label.

Standex modern car paint technologies are economical, environmentally-friendly and achieve optimum quality.
